

When I Keep Learning

When I keep learning, I teach my child:

1 Growth doesn't stop when you're grown up.

2 We don't have to stay stuck in old patterns.

3 Learning is part of responsibility.

4 Getting support and new tools is a strength, not a weakness.

5 Change is possible at any stage of life.

♥ Learning is part of caring. ♥

They're learning that growing is something we keep doing for life.
